

I am writing in re: to the low power FM broadcast service. I listen to KLove radio every day over an FM translator that is in danger with this new legislation. I cannot imagine getting through my workday with out KLove. This radio station helps keep my day upbeat and positive all day. Without KLove, I would not have a radio station that keeps my outllok positive but is safe for all ages to listen to without having to worry about content or verbage. I know that in the past KLove has helped me through some difficult times in my life and KLove needs to be around to help others through their trials and hard times. KLove has made a drastic difference in my life and needs to be around for other people in need of a positive in their lives. Thank you for the opportunity to share my opinion.
